EXPERIENCE

Bakker Research International Limited

Frontend Developer

Jul. 2023 – Mar. 2026

Wan Chai, Hong Kong (remote)

- **Tech Stack:** Javascript, Typescript, Vue, Nuxt.js, Tailwind CSS, Buefy
- Collaborated closely with UI/UX designers and backend engineers to design, build, and optimize core features for the Communi platform.
- Developed responsive user interfaces using Nuxt.js, Vuex/Pinia, TypeScript, and Tailwind CSS to ensure high performance and seamless user experience.
- Engineered the Communi web application as a Progressive Web App (PWA), delivering a near-native mobile and desktop experience.

Beedu

Frontend Developer

Jun. 2022 – Sep. 2022

Hanoi, Vietnam (On-site)

- **Tech Stack:** Javascript, Typescript, Vue, Nuxt.js, Element UI
- Developed and enhanced frontend features for multiple internal projects and client-facing web applications.
- Developed and improved the "Customer List" UI module for LienVietPostBank's enterprise CRM system.
- Built user interfaces for the NFT Collection management system on Lynkey's BackOffice platform.
- Implemented responsive designs and optimized performance for various devices.
